

Biodegradable and Biologically Active Product Catalogue

Green Building Design Group

IKIGAI ENGINEERING

Biodegradable and biologically active products are designed to preserve and protect the environment. Not only does it keep the environment safe but it also protects your family from harmful chemicals that are usually associated with most products.

Biodegradable and biologically active products strive to minimise the use of harmful toxins that is detrimental to humans and the environment. Eco-bio products contain alternative components to chemicals and are biodegradable, which means that they will degrade easily in the environment

- The range of products replace harsh chemicals and pollutants
- Simple to use, while one does their bit for a greener tomorrow
- An affordable value offering
- Enhances natural biological processes from the time of use
- Improves sustainability and competitiveness of industry
- Reduces facility maintenance and life cycle costs
- Reduces growth and transfer of pathogenic disease causing organisms
- Improves the dignity and quality of life of those facing rural sanitation challenges
- Preserves our environment and water resources

A biodegradable biological affordable alternative for those that care!

Green Building Design Group

IKIGAI ENGINEERING

Range of biodegradable biological products designed to meet commercial and domestic cleaning needs.

PURE BIODEGRADABLE AND BIOLOGICALLY ACTIVE CLEANING				ZAR	
Product Name	What is it?	Application	Unit Type	Min Order Qty	Unit price
BATHROOM CLEANER	A biologically active product containing readily biodegradable ingredients (OECD 301). Mild descaling, with mildew control. Keeps drains traps and pipes clean and odour free. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in bathrooms, toilets, showers and rest-rooms.	750 ml (EMPTY)	1	45.58
			50ml x 12 CONC	6	126.61
			5L CONC	6	494.56
ALL PURPOSE CLEANER	A biologically active product containing readily biodegradable ingredients (OECD 301). Offers multiuse versatility for routine cleaning in a single product. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use on all washable surfaces including floors, carpets, upholstery, windows, walls, work surfaces and more.	750 ml (EMPTY)	1	32.58
			50ml x 12 CONC	6	126.61
			5L CONC	6	494.56
SUPER CLEAN	A biologically active product containing readily biodegradable ingredients (OECD 301). Enhanced degreasing activity for heavier duty cleaning. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in washable cleaning applications, including spot cleaning, deep cleaning, laundry pre-wash, removal of food fats, oils, greases and more.	750 ml (EMPTY)	1	32.58
			50ml x 12 CONC	6	126.61
			5L CONC	6	494.56
SURFACE FINISHER	A non-biological product containing readily biodegradable ingredients (OECD 301). Replaces aerosol-based surface cleaners, polishes and protectants. Compatible with septic, grey and other water treatment systems.	Versatile use on almost any surface. Ideal for use on furniture, appliances, glass, metals, laminates, ceramics and plastics.	750 ml (EMPTY)	1	32.58
			50ml x 12 CONC	6	182.00
			5L CONC	6	989.13
FLOOR FINISHER	A non-biological product containing readily biodegradable ingredients (OECD 301). Replaces conventional floor surface cleaners, polishes and protectants. Compatible and enhances septic, grey and other water treatment systems.	Versatile use on almost any nonporous floor surface. Ideal for finishing of tiled, laminate, epoxy and painted floors.	750 ml (EMPTY)	1	32.58
			50ml x 12 CONC	6	126.61
			5L CONC	6	494.56
SANITIZING CLEANER	A non-biological product containing readily biodegradable ingredients (OECD 301). Non-alcohol based washable sanitizing cleaner, containing only food safe ingredients. Enhanced degreasing activity for heavier duty cleaning. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in versatile washable cleaning and degreasing applications, where sanitizing is preferred.	750 ml (EMPTY)	1	32.58
			50ml x 12 CONC	6	182.00
			5L CONC	6	989.13
DISHWASHING LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). A gentle on hands product	A low foaming product that cleans dishes to a streak free finish. Controls odours	500ml x 12 RTU	6	427.31

Green Building Design Group

IKIGAI ENGINEERING

	for domestic handwashing of dishes. Compatible and enhances septic, grey and other water treatment systems.	and prevents blockages in traps, drains and pipes.			
			1L x 20 RTU	6	712.18
			5L RTU	6	126.61
CITRUS GEL	A biologically active product containing readily biodegradable ingredients (OECD 301). Gel based citrus cleaner for all washable surfaces, with enhanced degreasing activity. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in versatile washable cleaning and degreasing applications, where a gel cleaner is preferred. Can be diluted as per preference.	1L x 20 RTU	6	1092.00
			5L RTU	6	158.26

FABRIC AND ROOM FRESHNER AQUA	A non-biological product containing readily biodegradable ingredients (OECD 301). Versatile water-based product that is fabric safe, containing biodegradable fragrances. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in bathrooms, restrooms, bedrooms, carpets, upholstery, bedding and curtains. Replaces aerosol-based air fresheners.	250ml X 24 RTU	6	836.53
			1L X 20 RTU	6	1092
			5L RTU	6	158.26
FABRIC AND ROOM FRESHNER EARTH	A non-biological product containing readily biodegradable ingredients (OECD 301). Versatile water-based product that is fabric safe, containing biodegradable fragrances. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in bathrooms, restrooms, bedrooms, carpets, upholstery, bedding and curtains. Replaces aerosol-based air fresheners.	250ml X 24 RTU	6	836.53
			1L X 20 RTU	6	1092
			5L RTU	6	158.26
STOVE TOP CLEANER	A biologically active product containing readily biodegradable ingredients (OECD 301). A paste based cleaner with smart grit that cleans shines, protects and shines all stove top surfaces.	Ideal for use on all types of stove tops including glass, stainless steel and more.	250ml x 24 RTU	6	1028.69
			1L X 20 RTU	6	2057.40
			5L RTU	6	451.05
FOOT WEAR CLEANER	A biologically active product containing readily biodegradable ingredients (OECD 301). A washable shoe cleaner specially designed to remove tough dirt, marks and stains on shoes, sneakers and soles.	Ideal for use on most types of porous shoe materials including canvas, suede, fabrics, rubber, plastic and more.	5L RTU	6	451.05
MICROFIBRE CLOTHS	A high quality 300gsm set of synthetic microfiber cloths in different colours.	Ideal for finishing, cleaning, buffing and polishing.	4 pack	6	90.45

Green Building Design Group

IKIGAI ENGINEERING

Range of water treatment and sanitation products that offer industry, effluent treatment plants and rural households access to biodegradable biological alternatives.

ECO BIODEGRADABLE AND BIOLOGICALLY ACTIVE SANITATION AND WASTE TREATMENT					ZAR	
Product Name	What is it?	Application	Unit Type	Min Order Qty	Unit price	
CISTERN BLOCK	A biologically active product containing readily biodegradable ingredients (OECD 301). Long lasting cistern block, that cleans, controls odours and prevents blockages in drains, traps and pipes. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in flush cisterns. Replaces non- biodegradable cistern blocks, rim blocks and sanitizing dozers.	1 block x 60	6	1345.22	
URINAL BLOCK	A biologically active product containing readily biodegradable ingredients (OECD 301). A long-lasting urinal block, that cleans, controls odours and prevents blockages in drains, traps and pipes. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in urinals. Replaces toxic naphthalene blocks, p-mats, sanitizing dozers, domes, etc.	45 blocks	6	316.53	
DRAIN GRANULES	A biologically active product containing readily biodegradable ingredients (OECD 301). For cleaning and odour control of kitchen and food drains. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in food and kitchen drains, traps and pipes that require cleaning, odour and blockage control.	200g x 24 RTU	6	977.38	
SAN LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). For cleaning and odour control of toilets and urinals. Compatible and enhances septic, grey and other water treatment systems.	Ideal for use in automatic dosing systems, portable systems or as a pour in solution for reduced flush systems.	5L RTU	6	102.87	
BIO ETS RTU LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). Enhanced for the treatment and bioremediation of industrial and sewage-based wastes.	Ideal for use in municipal sewage treatment plants, certain industrial effluent treatment plants and general waste treatment, including environmental bioremediation of spills.	25L RTU	6	502.90	
BIO VOF RTU LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). Enhanced for treatment and bioremediation of food waste, fats oils and greases.	Ideal in for use in drains, fat traps, food-based waste treatment plants and bioremediation of environmental contamination.	25L RTU	6	502.90	
BIO ETS RTU POWDER	A biologically active product containing readily biodegradable ingredients (OECD 301). Nutrient fortified and enhanced for the treatment and bioremediation of industrial and sewage-based wastes.	Ideal for use in sewage drains, traps, for industrial and sewage-based waste treatment plants and bioremediation of environmental contamination.	500g x 12 RTU	6	655.20	
			1 kg x 25 RTU	6	1503.48	

Green Building Design Group

IKIGAI ENGINEERING

BIO HC RTU POWDER	A biologically active product containing readily biodegradable ingredients (OECD 301). Nutrient fortified and enhanced for the treatment and bioremediation of petroleum hydrocarbon-based wastes.	Ideal for use in treatment of mineral oil and grease-based wastes for petroleum, mining and automotive industries and bioremediation of environmental contamination.	1 kg x 25 RTU	6	1503.48
BIO VOF RTU POWDER	A biologically active product containing readily biodegradable ingredients (OECD 301). Nutrient fortified and enhanced for treatment and bioremediation of food waste, fats oils and greases.	Ideal in for use in drains, fat traps, food-based waste treatment plants and bioremediation of environmental contamination.	1 kg x 25 RTU	6	1503.48

Green Building Design Group

IKIGAI ENGINEERING

Range of gentle biodegradable biological products for personal care which includes bath and shower washes as well as hand washes.

BIODEGRADABLE AND BIOLOGICALLY ACTIVE PERSONAL CARE				ZAR	
Product Name	What is it?	Application	Unit Type	Min Order Qty	Unit price
BATH AND SHOWER AQUA	A biologically active product containing readily biodegradable ingredients (OECD 301). A luxurious product with natural moisturising Argan, Moringa and Vitamin E oils. Compatible and enhances septic, grey and other water treatment systems.	A versatile wash for use in bath and shower, that cleans and moisturises the body. Contains natural bacteria that produce enzymes which keeps showers and baths mildew free.	500ml x 12 RTU	6	652.822
			1L x 20 RTU	6	1092
			5L RTU	6	126.61
HANDWASH AQUA	A non-biological product containing readily biodegradable ingredients (OECD 301). Gentle on hands with natural moisturising Argan, Moringa and Vitamin E oils.	For cleaning hands, leaving them smooth and moisturised.	250ml X 24 RTU	6	731.96
			1L X 20 RTU	6	617.22
			5L RTU	6	102.87
FACE WASH	A non-biological product containing readily biodegradable ingredients (OECD 301). Luxurious, very high-quality product with natural moisturising Argan, Moringa, Orange, Grapeseed, Vitamin E oils and minerals.	A premium quality low foaming face wash that cleanses, moisturises, improves skin tone and glow.	100ml X 24 RTU	6	1614.27
HAND AND SURFACE SANITIZER	A non-biological product containing readily biodegradable ingredients (OECD 301). Non-alcohol based hand and surface sanitizer, containing only food safe ingredients.	Ideal for use in sanitizing hands and work surfaces. Replaces alcohol and chemical based antimicrobial products.	750 ml (EMPTY)	1	32.58
			50ml x 48 RTU	6	731.96
			50ml X 12 CONC	6	182
			5L RTU	6	126.61
			5L CONC	6	989.13

**Range of products catering for the automotive industry and motor enthusiasts
which includes premium detailer's quality car care products.**

BIODEGRADABLE AND BIOLOGICALLY ACTIVE AUTOMOTIVE				ZAR	
Product Name	What is it?	Application	Unit Type	Min Order Qty	Unit price
PREMIUM WASH	A biologically active product containing readily biodegradable ingredients (OECD 301). Low foaming automotive cleaner and protectant. Compatible and enhances TPH water treatment systems.	Ideal for use on all types of vehicles, especially highly detailed and premium vehicles as a routine wash and protectant. Leaves a smooth, shiny and protected paint surface.	500ml x 12 CONC	6	655.20
			5L CONC	6	126.61
			25L CONC	6	633.05
SMART WASH	A biologically active product containing readily biodegradable ingredients (OECD 301). A water saving quick cleaner and protectant for all vehicle surfaces. Compatible and enhances TPH water treatment systems.	Ideal for use on all moderately soiled vehicle surfaces including body work, trims, glass and more. Do not use on heavily soiled vehicles.	750 ml (EMPTY)	1	32.58
			SMART WASH KIT	6	197.83
			200ml x 12 CONC	6	655.2
			5L CONC	6	451.05
			25L CONC	6	2215.66
POWER CLEAN	A biologically active product containing readily biodegradable ingredients (OECD 301). Heaviest duty low VOC cleaner and degreaser that conforms to green standards. Compatible and enhances TPH water treatment systems.	Suitable for use in cleaning of rims, engines, parts, suspension and paintwork. Ideal for use on workshop, garage and parking floors. Removes oil, grease and tar.	750 ml (EMPTY)	1	32.58
			5L RTU	6	126.61
			25L RTU	6	633.05
			50ml x 12 CONC	6	182
			5L CONC	6	989.13
TYRE SHINE	A biologically active product containing readily biodegradable ingredients (OECD 301). High quality, silicone free product that shines and protects tyres. Compatible and enhances TPH water treatment systems.	Suitable for use on all types of tyres and rubber. Reduces whip and dust attraction. OEM finish.	750 ml (EMPTY)	1	32.58
			1L x 20 RTU	6	712.18
			5L RTU	6	126.61
			25L RTU	6	633.05
HAND CLEANER	A biologically active product containing readily biodegradable ingredients (OECD 301). A gentle industrial hand cleaner for use in workshops. Compatible and enhances TPH water treatment systems.	Suitable for cleaning grease and dirt on hands, while moisturising and leaving a pleasant fragrance.	500g x 12 RTU	6	522.27
			5KG RTU	6	237.40
			20KG RTU	6	712.18

INDUSTRIAL BIODEGRADABLE AND BIOLOGICALLY ACTIVE CONCENTRATE INGREDIENTS					
BIO ETS + LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). Super concentrate for use as an ingredient in formulations enhanced for the treatment and bioremediation of industrial and sewage based wastes.	Ingredient for formulation of RTU products used in sewage drains, traps, for industrial and sewage based waste treatment plants and bioremediation of environmental contamination.	25L CONC	6	2594.30
BIO HC + LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). Super concentrate for use as an ingredient in formulations enhanced for the treatment and bioremediation of petroleum hydrocarbon based wastes.	Ingredient for formulation of RTU products used in treatment of mineral oil and grease based wastes for petroleum, mining and automotive industries and bioremediation of environmental contamination.	25L CONC	6	2594.30
BIO VOF + LIQUID	A biologically active product containing readily biodegradable ingredients (OECD 301). Super concentrate for use as in ingredient in formulations enhanced for treatment and bioremediation of food waste, fats oils and greases.	Ingredient for formulation of RTU products used for drains, fat traps, food based waste treatment plants and bioremediation of environmental contamination.	25L CONC	6	2594.30
BIO ETS + POWDER	A biologically active product containing readily biodegradable ingredients (OECD 301). Nutrient fortified super concentrate for use as in ingredient in formulations enhanced for the treatment and bioremediation of industrial and sewage based wastes.	Nutrient fortified ingredient for formulation of RTU products used in sewage drains, traps, for industrial and sewage based waste treatment plants and bioremediation of environmental contamination.	1 kg x 25 CONC	6	4490.14
BIO HC + POWDER	A biologically active product containing readily biodegradable ingredients (OECD 301). Nutrient fortified super concentrate for use as an ingredient in formulations enhanced for the treatment and bioremediation of petroleum hydrocarbon based wastes.	Nutrient fortified ingredient for formulation of RTU products used in treatment of mineral oil and grease based wastes for petroleum, mining and automotive industries and bioremediation of environmental contamination.	1 kg x 25 CONC	6	4490.14
BIO VOF + POWDER	A biologically active product containing readily biodegradable ingredients (OECD 301). Nutrient fortified super concentrate for use as in ingredient in formulations enhanced for treatment and bioremediation of food wastes, fats oils and greases.	Nutrient fortified ingredient for formulation of RTU products used in treatment of mineral oil and grease based effluents for petroleum, mining and automotive industries and bioremediation of environmental contamination.	1 kg x 25 CONC	6	4490.14
